Trial of 3 as Soviet Spies Opens in West Germany

KARLSRUHE, Germany, July 8 (AP)—A former top West German intelligence official on trial as a spy for the Soviet Union testified today that as a German agent in World War II he had obtained information on the 1943 Teheran and 1945 Yalta conferences from an associate of Allan W. Dulles.

Heinz Felfe, 45 years old, said that no one in Hitler's spy organization believed the information he had obtained on those two wartime meetings of President Franklin D. Roosevelt, Prime Minister Winston Churchill and Josef Stalin, the Soviet leader.

Mr. Felfe did not name the associate of Mr. Dulles, who was chief of United States intelligence in Switzerland at the time. Mr. Dulles later headed the United States Central Intelligence Agency.

Mr. Felfe is one of three men on trial here on charges of spying for the Soviet Union.

All are accused of treason. If convicted, they could be sentenced to a maximum penalty of 15 years each.

The chief defendant is Mr. Felfe. The prosecution charge that he collected \$50,000 in 10 years of selling secrets to the Russians.

Also on trial were Hans Clemens, 61, another intelli-

gence official, and Hans Tiel, 59, accused of acting as courier for the two others. The prosecution said Mr.

Felfe sent messages to the Russians even after his arrest in 1941 by smuggling letters out of jail.
